JAKUB DZIARNOWSKI

ABOUT ME

I am a third-year Computer Science student at City, University of London, looking for an internship in the domain of my interest - programming. I am an ambitious and hard-working person, which is reflected in my grades as I am on track to graduate with a First-Class degree. University studies and my individual work allowed me to develop high skills area of computers. I have learned programming in both object-oriented and functional languages. Among others, this includes Java, Python and Haskell. Additionally, I am familiar with back-end and front-end development as my dissertation project considers the creation of a multiplayer browser-based game. I am looking for a job where I will be able to use and deepen my knowledge of computing and programming.
